THE CENTRAL POINT

Paducah Promises to Become More Important With I. C.

Dixie Flyer Will Be Run Through the City in a Short Time.

LATEST RAILROAD RUMORS

It is stated on good authority that the Illinois Central will soon begin running its celebrated "Dixie Flyer" between St. Louis and Nashville, through Paducah. This was rumored some time ago, but never substantiated. It is now understood among officials that as soon as the Tennessee Central railroad is completed from Hopkinsville to Clarksville, the Illinois Central, which is supposed to be behind the Tennessee Central, will begin running the "Flyer" through Paducah.

This train goes from St. Louis to Nashville, and now goes via Fulton to Martin, Tenn., then to Nashville over the N. O. and St. L.

Under the new arrangement it will be run from St. Louis to Paducah via Cairo, from here to Hopkinsville, thence into Clarksville and Nashville over the Tennessee Central. Paducah will be the end of one division and the flyer crews will lay over here.

When this is done Paducah will become the central point for all train crews between Louisville and Memphis, St. Louis and Nashville and the terminal for all trains from the St. Louis division, as now.

The change in the route of the Dixie Flyer will be made as soon as the Tennessee Central is completed, which is to be about the 15th of October or November 1. Railroad men are taking a great deal of interest in the reports of changes.

ALL IN READINESS

Preparations Complete for the Festival Next Week.

Music and Decorations Will Prevail Everywhere in the City.

BIG CROWDS ARE COMING

The Red Men's fall festival begins Monday and everything is in readiness for it. The grounds at Fourteenth and Broadway are ready for the shows and by Monday the city will be well decorated, business houses and residences alike. It is believed the decorations will be the largest in the history of Paducah, and those who have not arranged to get in the push, should do so at once.

There will be plenty of music during the week, four bands having been engaged for the occasion. There will be Deal's band, the W. O. W. band and the band of the Hock Carnival company. These bands have all been rehearsing for the week, and expect to make a splendid showing. A stand will be erected on Broadway in front of the Red Men's headquarters and a concert be given daily by Deal's band from 9 to 11.

The shows will arrive from Cairo tomorrow and at once be stationed on the grounds. The free attractions are said to be the best of any company on the road, and the high wire feat is worth all the others combined, according to the report of the local committee.

The indications are that the crowds will be large, and by the first of the week the city will be well crowded with visitors who will spend the week with friends. A week of frolic and gaiety will follow the inauguration of festivities Monday, as it will be the last open air entertainment afforded the public before next spring.

The men who will take part in the Big Medicine Chief Show, met last night and held a rehearsal. The show will be a regular feature of the carnival and will no doubt be an excellent one. The float and the garb of the Indians will attract much attention in the parade and will incidentally arouse much mirth, being of the same class of features as the kangaroo court was during the Elks carnival.

PROGRAM.

Monday, arrival of Old Paducah at 6:30 p. m. to be met by the city officials and others.

Parade will proceed out Broadway to the grounds.

Tuesday—Railroad day.

Wednesday—Illinois day.

Thursday—Fraternal day.

Friday—Mardi Gras day, burlesque parade at 6:30 p. m.

Saturday—Paducah day.

The committee today succeeded in getting for the Paducah carnival "Niagara," one of the grandest fireworks displays ever invented. It costs \$300 for every time it is put on, and it will be put on here Tuesday night. It will be the first opportunity the people of this section ever had to see it. It is one of Paine's creations, and should be seen by everybody.

SHOW INCREASE

SEPTEMBER REPORT FOR RURAL ROUTES A GOOD ONE.

The report for the rural routes for the month ending October 1 is as follows: Route No. 1, deliveries 5,088, collections 508. Route No. 2, deliveries 3,388, collections 360. Route No. 3, deliveries 2,840, collections 370. Route No. 4, deliveries 1,760, collections 386.

No. 4 is the last route inaugurated and has only been in operation one month and the showing on it is especially good. A substantial increase is going on in the other routes.

LOCAL SHOPS CROWDED—Engine No. 12, Engineer Morrill and Fireman Onley will go to Chicago today for a general overhauling. The shops here are so full of work that it is impossible to repair the engine here.

WEEK'S NEWS IN THE BUSINESS WORLD

Clearings this week were \$670,473 Same week last year 612,118 Increase 58,359

Local business houses report good business so far this season with a good outlook for the future. This is so in all lines of trade, both wholesale and retail.

On general conditions throughout the country Bradstreet says: Mixed trade and crop conditions still present themselves, although improve-

ment in tone is noted where crop estimates, as in the case of corn, show expansion. Lower prices for cereals point the way to future large business, and induce a large foreign interest in our farm products. Trade reports vary with sections considered, the best reports coming from the southwest, the northwest and the Pacific coast. Spotted trade reports coming from sections of the middle west. From the south the reports are in the main favorable as to trade and collections.

SWING AROUND STATE

Prominent Men to Visit Leading Cities.

Will Come to Paducah on Wednesday, Oct. 14th, and Spend the Day.

CONSTITUTIONAL AMENDMENT.

Paducah will be visited by a delegation of distinguished Louisville men Wednesday, Oct. 14th, when the executive committee of the campaign started to arouse interest in the constitutional amendment, comes to this section in the interest of the move.

Among the gentlemen are William A. Robinson, Alvah L. Terry, P. N. Clarke, W. C. Nones and C. L. Searcy, of Louisville, and they will leave Monday morning, October 12, for a tour of Southern Kentucky, which will last one week. On this trip it is the purpose to arouse interest in the amendment and perfect an organization in the towns visited.

An itinerary has been arranged for the week. Members of the committee will leave Louisville over the Texas railroad and go direct to Owensboro, where they will arrive about 9 a. m., and will spend the remainder of the day. That evening they will go to Henderson and remain until Tuesday afternoon, when they take the train for Princeton, where a public meeting has been arranged for that evening. From Princeton the committee will go to Paducah and spend all of Wednesday in that city, doubling back to Hopkinsville on Thursday morning and remaining a portion of the day. On leaving Hopkinsville the committee will go to Bowling Green and remain over Friday and then come home. A similar swing through the eastern section of the state is also planned.

It has not been definitely determined how many members of the Executive committee will make the trip. Arrangements will be made in due time by the city officials and commercial club to entertain the gentlemen.

TAKE THE STUMP—Mr. W. S. Smith, a contractor, will make announcement of a series of speeches in behalf of the local and state Republican tickets in a few days.

A LARGE CONCERN

A New Mineral Company Organized Here.

The Capital Stock is \$150,000 and the Owners All Live in Paducah.

THEY HAVE FINE PROSPECTS

Articles of incorporation of the Mountain, Lead, Zinc, Fluorspar Co., Crittenden county, were filed here today with a capital stock of \$150,000. The corporation was formed to carry on a general mineral business. The buying and selling of mines, minerals, etc., and the operation of mills, railroads and other plants essential to the operation of such business.

The mines are located in Crittenden and Livingston counties but the principal office will be located in Livingston county. The capital stock is divided into 1,500 shares of \$100 per share and the following is a list of the stockholders and the amount of stock held: W. D. Greer, 375; J. L. Friedman, 375; Wm. Marble, 375; James A. Rudy, 187 1/2; E. P. Gilson, 93 3/4; George O. Hughes, 93 3/4.

The corporation is to be governed by a board of directors and the officers will be elected at a meeting of the stockholders on the third Monday of October.

The mines of the concern are about half a mile from Crittenden Springs, Crittenden county. There are two veins on the ten acres owned, one of them being the celebrated Columbia vein. On the other vein a shaft has been sunk by the company to a depth of 32 feet, and been timbered up. The zinc, lead and carbonate of zinc are very fine, and the prospects seem very good.

The mines of company are not far from the Columbia mines, and from the Maje Clemmons, the Bine and Nunn's, and the Wilson Mining company's mines. The company will probably put in new and modern machinery and at once begin the development of the mines. The Bine and Nunn recent discovery promises to prove as inexhaustible as the celebrated "Old Jim" mine.

Republicans must register on Tuesday, October 6, if they expect to vote.

He disliked the place, and sold it back to Mr. Williams. He then tried to buy his farm back from Mr. Browder, but the latter refused to sell. He tried to buy other farms near but was unsuccessful and he grew despondent.

A few days ago he was approached and asked to pay \$1,000 for a security which he made for a friend and together with his other trouble, this is said to have unbalanced his mind and after brooding over his troubles he took his life with a revolver. A wife and several children survive him.

King."

Wednesday: Matinee and balance
of week, Payton sisters Comedy com-
pany.

As soon as the season is in full
swing many fine attractions will be
seen in Paducah and no lack of big
shows will appear at the Kentucky.

Charles B. Hanford, one of the very
few actors who have been able to de-
voted their undivided efforts to Shakes-
peare with satisfactory pecuniary re-
sults has increased his repertoire for
the coming season, so that it includes
every phase of the great dramatist's
genius, from farce to tragedy.

"The Devil's Auction," "The Gov-
ernor's Son," "At Cripple Creek,"
Miss Hortense Nielson, Chas. B. Han-
ford and several other famous stars in-
cluding Richard Buhler in "Paul Re-
vere" are the near bookings at the
Kentucky.

An attraction in the amusement
field that is meeting with unbounded
success this season, is the starting tour
Richard Buhler, in the idyllic ro-
mantic drama, "Paul Revere." The
play is from the prolific pen of Fred-

erick Gibbs and his happy inspiration
has succeeded beyond the fondest ex-
pectations.

"Ten Nights in a Bar Room" was
presented to a fairly large audience at
the Kentucky theater last night by Al
Martin's company. The play seems to
have lost none of its popularity and
Martin always carries the best of scen-
ery and companies. The troupe went
to Jackson, Tenn., from here.

If the physician who recently an-
nounced that love was a disease and
that he had discovered the germ there-
to, will at any time attend a perform-
ance of J. N. Barrie's clever comedy
"The Professor's Love Story" as ex-
pounded by Harry Bessford he will
be given an opportunity to further ac-
centuate his theory, for he will then
see the actual workings of a mind that
is thus infected, as Mr. Bessford is
said to possess the power to actually
portray through the medium of his
expressive face and talking eyes the
workings of the mind.

The Payton sisters, who play at the
Kentucky all next week, except Tues-
day night, have an excellent company.
Wherever they have been they are
spoken of in the highest terms. Es-
pecial attention is given to the costu-
ming of the plays and the numerous
gowns worn by the three sisters them-
selves are very handsome and the
latest models for this winter's styles.
"Utah" is the play announced for Mon-
day night and it is said to be one of
the best plays in their repertoire.

"The Music Trades" in reviewing
the latest in musical comedies "The
Sleepy King," to be presented here by
the Walter Jones Comic Opera com-
pany, Tuesday night says: "The
book is a brilliant effort on the part of
Geo. V. Hobart and the music by
Giovanni Conterno contains all the
traditions of inherited talent from
three generations of musical com-
posers. Several of the vocal numbers
are gems in their own particular style
of song, and the dance and ballet num-
bers will prove delightful revela-
tions." The following are some of
the musical numbers. When He's

Dimples; I'm So Sleepy; Sweet Six-

IS IT CHARLIE ROSS?

Young Man in Texas Believed to
be the Long Lost.

Twenty Million Dollars to Be Appro-
priated for the Maintenance of

GOVERNMENT WANT MOSQUITOS

IS IT CHARLIE ROSS?

Galveston, Tex., Oct. 3.—The case
of William Von Hodge of Galveston,
who, it is believed may be Charlie
Ross, who was kidnapped from his home
in Germantown, Pa., July 1, 1874, is
exciting interest here. Pictures re-
ceived here today of the lost Charlie
Ross and the boy's father and mother
show a striking resemblance to young
Von Hodge. A likeness of the young
man taken when he was about 19
years old, greatly resembles the Ross
child. The photographs were sub-
mitted to experts, who pronounce the
family resemblance and facial outlines
of young Ross and his mother and
Von Hodge almost identical.

Von Hodge's early life is a deep
mystery, and the fact that he was
placed in an asylum the same year the
Ross child disappeared, and the strong
resemblance of one to the other, have
strengthened the hope that the Ross
child is alive.

Von Hodge was placed in a New Or-
leans orphan's home in 1874. He es-
caped from there about 1880, and
worked on a farm in Louisiana five
years, almost a prisoner, and escaping
from there, drifted east and entered
the navy. A friend of the family
called on Von Hodge today, and is

almost convinced that he is the long
sought Charlie Ross. He is trying to
communicate with the Ross family.

TO MAINTAIN FREE DELIVERY

Washington, October 3.—Congress
will appropriate \$20,000,000 at the
coming session for the maintenance
and extension of rural free delivery.
This, at least, is the expectation of
the postal officials immediately in
charge of the delivery service. Esti-
mates now being prepared at the de-
partment indicate that it will take
about \$13,000,000 to maintain the ru-
ral routes that will be in operation
July 1. About 3900 rural routes have
been installed since July 1 last. With
the funds now available 3000 addi-
tional routes can be established. This will
make 21,000 routes in operation by
the end of the fiscal year.

It is expected, however, that the
number will be largely in excess of
this figure. By January 1 the funds
appropriated at the last session of con-
gress will have been exhausted and
department officials anticipate that at
least \$500,000 will be made available
for emergency purposes. With such
an amount on hand the number of ru-
ral routes in operation on July 1, 1903,
will be at least 25,000. It will cost
the government \$12,500,000 in the
next fiscal year to maintain the ru-
ral service already established. This
will be an increase of more than \$3,-
000,000 over the figures of the cur-
rent year.

successor to Mr. Chamberlain, would

THE COCK AND THE JEWEL.

Find Another Cock.

A brisk young Cock, scratching for something with which to entertain his favorite hens, happened to turn up a jewel. Feeling quite sure that it was something precious, but not knowing well what to do with it, he addressed it with an air of affected wisdom as follows: "You are a very fine thing, no doubt; but you are not at all to my taste. For my part, I would rather have one grain of dear, delicious barley than all the Jewels in the world."

MOHAT.—There are several people in the world that pass, with some, for well accomplished gentlemen, and very pretty fellows, though they are as great strangers to the true use of virtue and knowledge as the cock upon the dunghill is to the real value of the jewel.

The Week In Society.

THE HEART OF THE ROSE.

What are the joys of the rose?
The silence of night at the shrine
Where it lies in a rapture divine;
The exquisite moment it knows
On the breast of a bride its last sighs
On the lips of a poet who dies;
These are the joys of the rose.

What are the griefs of the rose?
To lie in the clasp of the dead
While the tears of a mother are shed
To symbol a passion that goes
Or cover a bosom unkind;
To perish unplaced on the wind;
These are the griefs of the rose.

YOUNG OLD WOMEN.

You sometimes see a woman whose old age is as exquisite as was the perfect bloom of her youth. You wonder how this has come about. You wonder how it is her life has been a long and happy one. Here are some of the reasons:

She knew how to forget disagreeable things.

She mastered the art of saying pleasant things.

She made whatever work came to her congenial.

She retained her illusions and did not believe all the world wicked and unkind.—Philadelphia Inquirer.

Major W. C. Owen Still Making Demagogues Wince.

Compares the Republican With the Democratic Administration.

Owensboro, Ky., Oct. 3.—Major W. C. Owens spoke here to a representative audience of nearly 1000 people. The audience was composed largely of substantial Republicans, but there was a large sprinkling of conservative Democrats and young men whose party affiliations have not yet been formed and from these Major Owens received the most enthusiastic applause.

Major Owens was introduced by R. W. Slack.

Major Owens launched at once into a vigorous discussion of the issues before the people. The first matter he took up was the expenditures of the Beckham administration. He said had it not been for the fact that the claim against the federal government was paid in the nick of time, the treasury would have been hopelessly bankrupt. "You will never know," said he, "what became of all that money."

He compared every item of expense of Beckham's administration with those of R. R. Leakes, and scored the present administration on the Calhoun commissions. Especial stress was laid on the fact that Beckham has not attempted to refute the statement made twelve days ago that he had sold a pardon for \$500.

Referring to the Calhoun claim, Mr. Owens said that at Mounfordville he had stated that he did not believe Calhoun got all of the \$71,000, and that in the fisherman's phrase he was simply "baiting a place," confident that a guilty snoker would bite and that at Georgetown Beckham bit.

"Beckham can't, however, assume responsibility for the entire steal, for one of his appointees, Adjutant General David Murray, has boasted to certain of his friends in Breckinridge county that he (Murray) was to get \$15,000 of it. If Mr. Murray should see proper to deny this statement I think I can refer him to a gentleman who will refresh his memory on the subject."

RETURNS TO KENTUCKY.—Mr. Harvey Phillips, who has been traveling in Oregon for the Chattanooga Medicine company, has resigned to return to Kentucky and accept a position as traveling salesman for the Paducah company. His territory will be in Kentucky.

"No More Aches and Pains."

No. 826 Perdido Street, NEW ORLEANS, LA., March 27, 1903.

For over nine years I had been troubled with leucorrhoea. The discharge was yellowish at times but after the menstrual period it would become reddish, acid and exorbitant. This exhausted my system. I was continually tired while my appetite was poor, my digestion very bad and my sleep fitful and feverish.

Wine of Cardui was the one remedy which helped me in my distress. I soon found that it relieved the pain and imbued me with new strength and after the use of 22 bottles I was well. No more discharge. No more aches and pains and oh, what relief, only those who have had my experience can appreciate the value of such a fine medicine as Wine of Cardui.

Anna D. Moore
VICE-PRESIDENT, UNITED DAUGHTERS' INDUSTRIAL CLUB.

WINE of CARDUI

Does not this letter convince the most skeptical sufferer that Wine of Cardui will bring her health? It is difficult to imagine a case where there are more discouraging features than this before Mrs. Moore began taking Wine of Cardui. Leucorrhoea is an inflammation of the vagina. It is really decay in the vital organs of womanhood. This inflammation often drives the pain and the distress to such a degree that the sufferer is accompanied by the utmost agony. The life of the woman who lets this trouble run on as Mrs. Moore did is one of misery. But Mrs. Moore did not know what medicine to take to cure it. When she had Wine of Cardui brought to her attention she took it and continued the treatment until she was cured. The case was a chronic one and it took persistent effort to bring a permanent cure.

This cure can be secured by any woman who takes Wine of Cardui. Mrs. Moore tried everything else and continued to suffer. She tried Wine of Cardui and was cured. You can treat your case successfully in your own home and nobody need know anything about it. Secure a \$1.00 bottle of Wine of Cardui today and begin the treatment.

Mrs. Anna D. Moore.

DO NOT BE DECEIVED.

The Democrats of Kentucky should not be deceived. More depends on the result of the November election than the mere placing in office of Democrats. The progress of the state and the prosperity and happiness of the people depend largely on electing the Republican ticket. The Louisville Post opportunely remarks:

"There is much in the present campaign in Kentucky which recalls the national campaign of 1899. The political managers seem to be not so concerning the course of the people. The flamboyant accounts written by the correspondents accompanying Governor Beckham are more republishings from the files of the Courier-Journal in 1899 and 1900. We find in the organs of the Democratic party no hint of anything like dissension or discontent among the people, but everywhere the strange assumption that the people are entirely satisfied with the conduct of the penitentiaries, with the pardon record of Governor Beckham, with the Calhoun fees, with the eligibility of the governor, with the condition of the asylums for the insane and with the overthrow of the ballot in Democratic primaries.

"Our own information is that on these accounts there is very wide discontent and that it is especially manifested within the lines of the regular Democracy. Thousands of Democrats did not believe that there was in 1899 and 1900 an organized purpose on the part of Democratic managers to overthrow the ballot box. They shut their eyes to what was going on around them and voted the straight Democratic ticket. Now they find that the tactics used against the Republicans have been used within the party against the Democrats themselves. They see in the control of the organization an oligarchy of officeholders, a perpetuating body that ignores the most provisions of the constitution and on its way unbecked, confident that the men who in 1899 and 1900 voted for Beckham and the Democrats are dominated by the May prima-

ry.

GRADE A FAILURE.

of the earth that do not recognize protec-

tion as one of the greatest principles extant. It has made America expand and flourish beyond our fondest dreams and installed us as the greatest nation, commercially at least, in the world.

American goods are now found everywhere that civilization is found. We are able to compete in their own countries, as well as in America, with foreign manufacturers of everything, and our success has opened the eyes of other nations.

A significant speech was that made a few days ago by Premier Balfour at London. It shows the trend of great minds of England, and a desire to break asunder the fetters that bind them to the obsolete methods of the past.

Of free trade and protection Mr. Balfour said:

"I bear criticisms on American and German policy which caused those great industrial nations to accompany their marvelous commercial expansion with protective duties, which must have thrown a heavy burden on the consumer. I feel that they have a re-

tor to which I at least have no reply. They may well say that, although protectionists, they have established permanent free trade within the limits of their own country, where everything which can hamper production or limit the increase of wealth, has been abolished by their patriotism and foresight, and they may well ask us whether we in the British empire can point to a similar picture, and whether our vaunted free trade includes those great self-governing colonies which we proudly boast are to be the great buttresses of our empire in the future."

Those Democrats who are trying to foist the machine-made gang back on to the people can see a good reflection of themselves in the following editorial in the Chattanooga Times, a Democratic paper: "General Buckner has challenged the coarse and vituperative abuse of Democrats of the Goebel brand in Kentucky by his powerful arraignment of the degeneracy of Democratic leadership in that state, but, he, at the same time, wins and holds the esteem of patriotic American citizens who hold country above mere partisan politics, and who believe in honesty and fairness in elections. The campaign in Kentucky is for principle against the most arrogant gang of pestiferous machine manipulators that ever threatened the peace, dignity and good order of a people. It is a contest, not between the forces of decency, law and order and the myrmidons of a rapacious, thoroughly corrupt and totally discredited factional machine."

The commonwealth may turn up short a star witness in its next trial of the alleged Goebel conspirators. W. H. Culton is charged with forging witness claims in the last Powers trial to the tune of about \$1,000. The attempted fraud was discovered by the state auditor in time to save the state, but not to save the attorney for whom Culton bought up the claims, and who paid Culton what they called for on their face after being raised. Culton can now go to join Strolling Barber Weaver and other touring witnesses against the alleged conspirators. It is on this kind of men the Democrats depend for their evidence in the Goebel cases.

Republicans must register, and not wait until the supplementary registration day. The Democratic machine here, built up by years of graft, pull and patronage, will not down easily, and the only way to annihilate it is to register and bury it under an avalanche of ballots.

The Democrats of Kentucky are trying to make it appear they are hoing an easy row in the present campaign, but they are fooling nobody. They never were worse frightened in their lives.

There seems to be room for several more Beckham clubs in Paducah, judging from the proportions of the one just organized.

PRODUCTS OF A STATE

Are Foundations of Wealth, But Industries Are the

SINews OF FINANCIAL STRENGTH.

Secretary Peyton N. Clarke Gives an Interesting Interview on the Benefits That Will Come From the Adoption of the Constitutional Amendment in November.

Himself always in the front rank when contests are waged for state development, Mr. Peyton N. Clarke of Louisville was naturally turned to by the Constitutional Amendment Committee for its Secretary. He has unselfishly devoted much of his time to all propositions of this kind and is easily one of the best posted citizens of the State on the Constitutional Amendment. The following review of the benefits to accrue was furnished by him for our readers:

"You will understand, of course, that the proposed Amendment will not interfere in any manner with the present method of assessing real estate and personal property for State and county purposes. All towns and cities will continue as heretofore to pay taxes for State and county purposes under the present law, and the proposed Amendment, if adopted, will make it possible for any town or city in the State to secure an act of the Legislature, providing that in raising revenues for strictly local purposes, towns and cities of any class may substitute for the present ad valorem system, such licenses, franchises, and excise laws, in subjecting personal property to its fair share of the expenses of such towns and cities as may take advantage of the Amendment when adopted.

"It would seem to be a perfectly fair proposition to allow the towns and cities in the State to raise their revenue for strictly local purposes in any manner they see fit, and no fair-minded person could reasonably object to allowing them this privilege, but the main object and purpose of the Amendment is of far greater moment and interest to every citizen in the State, whether he is a resident of a town or city or resides in the country districts.

"The products of a State are its foundation of wealth, but its industries are the sinews of its financial strength. Without industries, which afford markets, in proximity to the products, the producers are badly handicapped, and if compelled to send their products to distant markets, where there is greater competition and increased expenses, as well as numerous losses, it is perfectly plain that the producer must suffer.

"Now, in order to secure more industries, which means more employees and more mouths to feed, we must encourage the establishment of new enterprises, and at the same time, by increasing the capacity of those already established, secure an ample home market for our home products.

"Other States have seen the wisdom of this policy and Kentuckians should not be allowed to lag behind them. Our geographical position and enormous undeveloped wealth should enable us to occupy a place in the front ranks of industrial development and the future welfare and prosperity of the State can be settled in a great measure by the adoption of the Constitutional amendment. Manufacturers and other industries cannot be induced to locate in Kentucky while our taxes on such industries are greater than in other States with which we have to compete. Therefore, in order to secure the benefits, our position and advantages entitle us, we must be able to offer the same inducements as are offered by our neighbors.

"While the proposed Amendment will not change in any manner the present method of assessing real estate for State and county taxes, it must not be concluded that it will not greatly benefit the entire State.

"It is confidently believed that the new law will enable the assessors to disclose a vast amount of property not at present in reach of the assessors, and if this result should follow, there would be an opportunity for an immediate and radical reduction in the tax rate for State and county purposes by which every taxpayer in the State would be directly benefited. The main advantage would be in the inducement to new industries to locate in our midst, new capital to seek investment in our farms, mines and rich timber lands, and by thus increasing our wealth and importance the result would invariably follow of a reduction in the tax rate. It is a very simple proposition that the more property to be taxed, the lower the rate necessary to secure the same revenue.

"A recent change in the Kentucky incorporation law has kept vast sums of money in our State which before the change referred to, went to other States, and the numerous enterprises now being incorporated in Kentucky will continue to add to its revenues for all time to come, and if anyone has been damaged in any way by the change there has been no discovery of the fact.

"If Kentucky could gain so much by a simple change in the statutes, why should she not gain a great deal more by a change in the revenue law as proposed in the Amendment to be voted on in November?

"This is a grave proposition and deserves the most intelligent thought and action of our citizens."

A STRONG, VIGOROUS MAN

Is Liable to Break Down—Peruna is Sure to Restore.

Hon. Frank Dunn, Alderman Twenty-Fourth District, writes from 232 East Fifty-Eighth Street, New York City:

The Peruna Medicine Co., Columbus, O.:

Gentlemen: "There is no remedy for a broken-down system that I know of which will so effectually restore health as Peruna."

"Whenever I am overworked or suffer from the consequences of a cold a few doses of Peruna builds me up again more quickly than anything I ever tried. I find it especially valuable for catarrh. Three bottles cured me three years ago of catarrh of the stomach and I have never had the least symptoms of it since."

Very truly,
FRANK DUNN, Alderman 24th Dist., N. Y. City.

A TONIC is a medicine that gives tone to some part of the system. There are different kinds of tonics, but the tonic most needed in this country, where catarrh is so prevalent, is a tonic that operates on the mucous membranes.

Peruna is a tonic to the mucous membranes of the whole body. It gives tone to the capillary circulation which constitutes these delicate membranes.

Peruna is a specific in its operation upon the mucous membrane. It is a tonic that strikes at the root of all catarrhal affections. It gives tone to the minute blood vessels and the terminal nerve fibres. Catarrh cannot exist long where Peruna is used intelligently. Peruna seeks out catarrh in all the hidden parts of the body.

Paul Landrum writing from Atlanta, Ga., says:

"In January last I began the use of your Peruna and Manalin for what was termed organic heart trouble. At that time I could scarcely walk to my place of business without stopping to rest and on arrival felt completely exhausted. Had severe pains in my heart and general dizziness. After using the first bottle of Peruna I began to improve and today I feel that I am a sound man and I work fourteen hours a day without any bad feeling."—Paul Landrum.

A. M. Ikard, an employee of the C. B. & Q. R. R., West Hurlington, Ia., writes:

"I had catarrh of the stomach and small intestines for a number of years. I went to a number of doctors and got no relief. Finally one of my doctors sent me to Chicago and I met the same fate. They said they could do nothing for me, that I had cancer of the stomach and there was no cure. I almost thought the same, for my breath was something awful. I could hardly stand it, it was so offensive. I could not eat anything without great misery, and I gradually grew worse.

"Finally I got one of your books, and concluded I would try Peruna, and thank God, I found a relief and a cure for that dreadful disease. I took five bottles of Peruna and two of Manalin, and I now feel like a new man. There is nothing better than Peruna, and I keep a bottle in my house all the time."—A. M. Ikard.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

LANG BRO'S UNUSUAL OFFER.

SELL DR. HOWARD'S SPECIFIC AT HALF PRICE, AND GUARANTEE A CURE.

"It isn't often that we have faith enough in the medicine put up by other people to be willing to offer to refund the money if it does not cure," said Lang Bros. to a Sun man who dropped into their store, "but we are glad to sell Dr. Howard's specific for the cure of constipation and dyspepsia on that basis."

"The Dr. Howard company, in order to get a quick introductory sale, authorizes us to sell their regular 50 cent bottles at half price, 25 cents and although we have sold a lot of it, and have guaranteed every package, not one has been brought back as unsatisfactory."

"We are still selling the specific at half price although we cannot tell how long we shall be able to do so, and any one who is subject to constipation, sick headache, dizziness, liver trouble, indigestion or general played out condition, ought to take advantage of this chance. You can tell your readers that if they are not satisfied with the specific they can come right back to our store and we will cheerfully refund their money."

Beating Wall Street. An exceedingly bright but unsuccessful lamb bleated to his broker: "Do you know it's deuced queer I can't get right on the market? My cousin says he beats it every day for a thousand or two." "Well," replied the broker, "there isn't anything to bind you from saying that, is there?" New York Press.

"Operator," Not "Chauffeur." Objection to the use of the French word "chauffeur" in the ordinance regulating the speed of automobiles in Kansas City has led to the substitution of the word "operator" to designate the man controlling the machine.

The boat and barge building plant of the Barretts at Leavanna, O., is busy just now. Eight government barges are being built there, besides two coal flats for St. Louis parties and three big model barges for the Barrett barge line. There is other work in prospect.

Captain Ed J. Howard has returned to Jeffersonville from a business trip to Evansville. Speaking to a friend in regard to his trip and the inducements held out, Captain Howard said that Evansville citizens assured him of ground for years, first class railroad facilities, taxes and all necessary wharfage free. Much interest is being manifested in maritime circles in new departure of towing a 3,000-ton ship across the Atlantic from Philadelphia to Genoa, Italy, says the New York Herald of September 24. The large, powerful Dutch tugboat Titian is due to arrive from Amsterdam, Holland, consigned to Theodore Ruger & Co., who have chartered the tug to tow the Italian ship Erasmo, of 2,157 tons register, from Philadelphia to Genoa.

FOUND COAL

A RICH VEIN FOUND 100 FEET IN THE GROUND.

The Marion Coal company, promoters of the White-Ash coal mines four miles north of Marion, Ill., are jubilant over the final reaching of the vein of coal after which they have been digging day and night without an hour's stop ever since the Fourth of July. The coal was reached at a depth of 100 feet, after going down 20 feet of earth, 56 feet of sand stone and slate, and fifteen feet of the hardest limestone in the state.

MOTHERS.

Who would keep their children in good health, should watch for the first symptoms of worms and remove them with White's Cream Vermifuge. It is the children's best tonic. It gets digestion at work so that their food does them good, and they grow up healthy and strong. 25c at DuBois, Kolb & Co.

BOGOTA, Miss., March 19, 1903.
Gentlemen: It affords me no little pleasure to testify to the wonderful properties of Hayes' Beechwood Emulso-Hypo with Iron, as it saved my life when the physicians said that I could not get well. After taking six or eight bottles I weighed 150 pounds. That has been ten years and I am still living in fine health. Wishing you success in its sale, I am yours truly, FRANK S. LAWSON.

ASHLAND, Ky., March 18, 1903.
Gentlemen: Having used Hayes' Beechwood Emulso-Hypo with Iron I cannot commend too highly to others as a tonic, flesh builder and to give strength, blood and muscle. It is superior to any preparation of which I have any knowledge. I take pleasure in recommending it. Yours truly, R. W. NEWCOMB.
